ABOUT THE PRODUCT

What is AccessibilityWidg?

A plug-and-play accessibility layer that turns any website into an inclusive experience, INSTANTLY.

AccessibilityWidg is a lightweight JavaScript widget that embeds 22+ accessibility features and 7 pre-built disability profiles onto any website, no developer expertise required. A single script tag is all it takes.

The Problem

Over 1 billion people worldwide have some form of disability. 96.3% of the top 1 million websites fail basic accessibility standards (WebAIM, 2024). Most organisations cannot afford full accessibility audits or custom engineering.

The Solution

One line of code instantly activates a floating accessibility toolbar, giving every visitor 21+ tools to customise their experience, from screen readers and dyslexia fonts to seizure-safe mode and sign-language support.

"Accessibility is not a feature, it is a fundamental right. AccessibilityWidg makes compliance effortless."

ACCESSIBILITYWIDG · CORE MISSION

- **Epilepsy Safe** — No flashing content
- **ADHD Friendly** — Reduce distractions
- **Cognitive Disabilities** — Simplified interface
- **Motor Impairments** — Keyboard navigation
- **Color Blindness** — Color filter modes

GETTING STARTED

Up and Running in 3 Steps

No dev team needed. No complex configuration. Instant results.

1

Sign Up for Free

Create your account at accessibilitywidg.com — no credit card required. You receive 100 free tokens immediately, enough to test on any website.

2

Copy Your Embed Code

Your dashboard generates a unique one-line script tag. Copy it, the whole installation is just this one snippet.

3

Paste Before </body>

Add the script anywhere in your HTML, WordPress theme, Shopify layout, or any platform's custom code section. The widget appears instantly.

```
<!-- AccessibilityWidg — paste before </body> -->
<script src="https://cdn.accessibilitywidg.com/widget.js"
 data-token="YOUR_TOKEN"
 defer></script>
```

WORKS WITH EVERY PLATFORM

HTML / Vanilla · React · Next.js · Vue.js · WordPress · Shopify · Wix · Squarespace · Webflow · BigCommerce

LEGAL & BUSINESS IMPACT

Compliance & ROI

Accessibility is not just ethical, it is a legal requirement and a business growth lever.

STANDARDS SUPPORTED

WCAG 2.1 AA | ADA Title III | Section 508 | EN 301 549 | AODA

Legal Risk

ADA accessibility lawsuits hit a record 4,605 in 2023, up 42% year-over-year. Average settlement cost: $25,000–$350,000. Our widget significantly reduces your exposure by meeting WCAG 2.1 AA standards.

Revenue Opportunity

1 in 5 people have a disability. Accessible websites see up to 20% more traffic and 35% higher conversion rates from users with disabilities, a massive untapped market.

Our Core Strength

AccessibilityWidg goes beyond basic compliance. Built-in screen reader support, sign language overlays, and 7 pre-configured disability profiles mean every visitor, regardless of ability, gets a fully tailored experience from the moment they land on your site.
